

## SERENO SOAP DISPENSER

### TOUCH-FREE ELECTRONIC SOAP DISPENSER

## SPECIFICATIONS

Touch-free electronic soap dispenser for deck-mounted installations. Activated by infrared sensor. For use with any non-proprietary soap. Chrome plated body, other finishes available. Includes a 1 liter soap bottle and bottle support. With a designated peristaltic pump that prevents clogging and back flow. Adjustable settings by remote control: soap quantity, soap tank refill, temporary off and reset to factory settings.

## OPERATION

Touch-free electronic soap dispenser operated by infrared sensor. The soap dispenser automatically activates when users

place their hands within sensor range, providing a measured amount of soap (adjustable by remote control). If the users remove the hand before the full amount is dispensed, the soap dispenser immediately stops the soap flow.

## APPLICATION

With the dripless automatic shutoff, this soap dispenser helps washroom organization and cleanliness. Combined with the touch-free electronic faucet, it creates a germ-free automated environment. Ideal for stadiums, train and bus stations and highway rest stops.
