

SYMMONS®

We make things right.

In 1939, Paul Symmons invented the first anti-scald, pressure-balancing shower valve. More than 80 years later, his vision is reflected in everything we do, and we're proud to be manufacturing our high-quality plumbing products right here in the USA.

SYMMONS INDUSTRIES, INC | BRAINTREE, MA | 1 (800) SYMMONS | SYMMONS.COM

Why Symmons?

We've been manufacturing our products in the Boston area **since 1939**.

100% of our valves are pressure- and water-tested in our Braintree factory.

Our industry-best warranty covers everything we make, limited lifetime for residential and a full 10 years for commercial!

Our Temptrol® pressure-balancing shower valve is made entirely of semi-red brass, bronze, and stainless steel for durability and corrosion resistance.

Duro® Collection

The bold angular design of the Duro Collection reflects the concept of form and function as one ideal. The precise rectangular shapes present a clean, minimalist feel for any contemporary bath or kitchen.
