

# SYMMONS®

## We make things right.

In 1939, Paul Symmons invented the first anti-scald, pressure-balancing shower valve. More than 80 years later, his vision is reflected in everything we do, and we're proud to be manufacturing our high-quality plumbing products right here in the USA.

**ReadyStock™**  
Always in Stock

Symmons ReadyStock is a group of products that will **always be in stock and ready to ship within 3 days**, regardless of your quantity needs.

ELM & IDENTITY

## Why Symmons?

MADE RIGHT  
IN THE USA

We've been manufacturing our products in the Boston area **since 1939**.

**100% of our valves** are pressure- and water-tested in our Braintree factory.

**Our industry-best warranty** covers everything we make, limited lifetime for residential and a full 10 years for commercial!

**Our Temptrol® pressure-balancing shower valve** is made entirely of semi-red brass, bronze, and stainless steel for durability and corrosion resistance.

## Elm® Collection

The sleek form and simple lines of the Symmons Elm® Collection can be a subtle addition, or choose a bold finish to make it the focal point of any bathroom design.

## Identity® Collection

The individuality of recent customer projects inspired the Symmons Identity® Collection's balance of sleek curves and defined edges with stylish simplicity. Its distinct contours bring a modern touch with hints of retro Space Age design.
