

Push-Pop Lavatory Drains

Make It Pop!

Cleaner, easier lavatory drains are popping up everywhere!

Pop on over to the new Symmons Push-Pop Lavatory Drain and toss those outdated lift rod linkages! Push-Pop is the latest Symmons innovation for lavatory pop-up drains that are easier to use and easier to install.

Push down on the spring-actuated pop-up to close it, push it down again to pop it open. That's it! No clunky lift rod linkages to jam up, corrode, or catch hair and cause clogs.

The Push-Pop installs faster with less parts and less leak points, which reduces callbacks. And since there are no rods or knobs, there are no concerns about wall or backsplash clearances either.

And you'll be popping for a long time, because all Symmons Push-Pop Lavatory Drains are made of brass, bronze, and stainless steel, and they're covered by the Symmons industry-best warranty!

EASIER AND FASTER INSTALLATION!

Stop wrestling with complicated lift rod adjustments! Just drop the Push-Pop in, spin it on, and pop it up!

SIMPLY CLEANER

The stainless-steel strainer just lifts right out for cleaning, and it may even save a valuable piece of jewelry from disappearing forever!

ADA COMPLIANT

The spring-actuated pop-up is easy to operate without grasping or pulling, so anyone can use it!

The new Symmons Push-Pop Lavatory Drains are coming soon! Here's a rundown of when they'll pop up!
