Overview

Clean Look at a Lower Cost with Temptrol® VersaFlex™

- ✓ Now available: “08” trim options include a showerhead and hand shower
- ✓ No secondary diverter valve or trim are necessary
- ✓ Unbeatable price point as compared to the leading competitor
- ✓ Trim options available in a wide variety of aesthetics to suit your design needs

Benefits of Temptrol® with VersaFlex™ Integral Diverter

- NEW** **Diverter Functionality Updated**
Our new VersaFlex diverter cartridge offers the functionality of a showerhead and hand shower without a secondary diverter valve and trim.
- NEW** **No Secondary Diverter Valve Needed**
Because no secondary diverter valve and trim are required, you save cost on installation time and materials.
- NEW** **Clean Look**
Get the look you want at a price that fits the budget. Less trim in the shower creates a clean aesthetic.

Fits All Decorative Trim

Because all Symmons decorative trims fit our Temptrol valve, you have complete control of the design. Choose from any of our contemporary, traditional, or transitional trim options.
