

## CASE STUDY

# Symmons Provides Bath Products for L.A. LIVE, a Los Angeles Destination

Design Studio™ upholds high-end brand standards

### CHALLENGE

This multi-use property had to accommodate the J.W. Marriott, Ritz-Carlton Hotel, and the Ritz-Carlton Residences.

### SOLUTION

AEG sought suppliers that could enhance the value of their investment and keep operating budgets in check without compromising the design vision, which is why AEG turned to Symmons® to provide bath fittings for the 1,000 room multi-use property.

### RESULT

Symmons Design Studio™ designed custom bath products for each property to uphold each brand's respective standards.

**OVERVIEW:** When AEG, a leading sports and entertainment presenter, signed on to develop the \$2.5 billion, one-of-a-kind entertainment campus in Los Angeles they committed to provide an unforgettable experience for its patrons. Knowing that an unforgettable experience doesn't have to end when L.A. LIVE visitors leave the concert, convention or restaurant, AEG partnered with architect Gensler and Barry Designs to custom design two luxury hotels and high-end residences.

### PROPERTY HIGHLIGHTS

**\$2.5 BIL**

Project budget

**54**

Stories

**1,000**

Rooms

Lowered water costs without impact to performance

Increased ease and speed of future renovations
